## APPLICATIONS FOR TRIUMPH BONNEVILLE T120 (2016-2018)

**PART NO : TR 644 • PART NO : FSK 120**

You will ride your Triumph Bonneville British classic bike with superior confidence when you fit the Blackline edition Öhlins STX 36 rear twin emulsion type shock absorbers. Better comfort and traction with rebound damping and length adjustment. Improved overall performance and riding confidence.

Öhlins FSK 120 kit for Bonneville T120 improves the performance of the standard front fork. Amongst the advantages with this design is the improved chassis balance, cornering and stability under braking. A preload adjuster is located at the top of each fork leg to match rider preferences. The parts included in this FSK kit will easily fit inside the original front fork and are easy to install.
